

GEOGRAPHY FROM A TO Z

GEOGRAPHY TERMS NOTEBOOK

Using
Geography terms
from A to Z Book

Why should we study geography?

Geography can help us understand the planet's movement, changes, and systems.

The Greek word geo means earth, while graphy means to write about something. Together, geo and graphy literally mean "to write about the Earth."

Physical geography is the study of Earth's seasons, climate, atmosphere, soil, streams, landforms, and oceans.

This notebook is for writing definitions and drawing different kinds of terms related to geography.

To write down the definitions from this notebook, you will need Jack Knowlton's book *Geography From A To Z*.
